IT AZIENDA

Italpak srl ha sede a Forlì e produce packaging decorativo dal 1975, attraverso strutture rinnovate nel tempo e macchinari all'avanguardia. Siamo presenti in più di trenta paesi, offrendo collezioni aggiornate e realizzando produzioni speciali personalizzate.

Forniamo grossisti, catene di negozi, grandi distribuzioni, industrie, operiamo sui mercati internazionali, grazie alla capacità di creare prodotti che si adattano a differenti esigenze distributive. Disponiamo di un ufficio commerciale multilingue, in grado di rispondere prontamente alle richieste dei clienti, gestendo i loro ordini, dal momento dell'inoltro, fino all'appuntamento e spedizione.

MISSION

Prestiamo molta attenzione allo stile, alla presentazione, alla qualità globale dei nostri articoli, crediamo in un moderno modello di comunicazione, nella creatività e nel gusto italiano, nell'importanza di realizzare prodotti innovativi e facilmente utilizzabili.

La curiosità intellettuale, la voglia di crescere, il senso di appartenenza, ispirano il nostro modo di essere, ed identificano le persone che vivono il lavoro come una passione.

VISION

Mettiamo impegno ogni giorno perché le confezioni possano acquistare significato, diventando belle esperienze visive ed emozionali. Vogliamo portare anche nel campo del packaging decorativo, la creatività, la cura dei particolari, la raffinatezza dello stile italiano nel mondo.

Un regalo è comunicazione, la confezione un mezzo per renderla più intensa, con i nostri prodotti possiamo contribuire ad esaltare questi splendidi momenti.

THE COMPANY

Italpak s.r.l. is based in Forlì and has been producing decorative packaging since 1975 through ever renewed facilities and state-of-the-art machinery. We operate in more than thirty countries, offering collections which are constantly innovated and creating customised product solutions.

We supply wholesalers, chain stores, large retailers and industries; we are present on international markets thanks to our ability to adapt products to different distribution requirements.

We have a multilingual sales office able to respond to customer requests in a timely manner, managing their orders from placement to fulfilment until shipping.

MISSION

We pay much attention to style, presentations and the overall quality of the products; we believe in a model of modern communication, creativity and Italian taste, as well as in the importance of innovative products, easy to use.

Intellectual curiosity, desire to grow, a sense of belonging inspire our way of being, and identify the people who live their work as a passion.

VISION

Every day we work hard to give a significance to our wrappings, making sure they are beautiful visual and emotional experiences. We want to bring our creativity, attention to details, sophistication of Italian style into the decorative packaging market.

A gift is communication and its packaging a way to make it more intense; with our products we can enhance these fantastic moments.

L'ENTREPRISE

La firme Italpak s.r.l. a son siège dans la ville de Forlì et produit des emballages décoratifs depuis 1975, en s'appuyant sur des structures qui se renouvellent constamment au fil du temps, ainsi que sur des machines se situant à l'avant-garde. Nous sommes présents dans plus de 30 pays, en offrant des collections originales et en réalisant des productions spéciales personnalisées.

Nous fournissons les grossistes, les chaînes de magasins, les réseaux de grande distribution, les industries, nous œuvrons sur les marchés internationaux grâce à notre capacité de créer des produits qui s'adaptent à toutes les exigences en matière de distribution.

Nous disposons d'un service commercial multilingue, en mesure de répondre rapidement aux demandes des clients, en gérant leurs commandes, à partir du moment de leur arrivée jusqu'à la préparation et à l'expédition.

NOTRE MISSION

Nous accordons la plus grande attention au style, à la présentation, à la qualité globale de nos articles, nous croyons fermement à un modèle de communication moderne, à la créativité et au goût italien; à l'importance de réaliser des produits innovateurs et facilement utilisables.

La curiosité intellectuelle, l'envie de croître, le sens d'appartenance inspirent notre manière d'être et caractérisent les personnes qui vivent le travail comme une passion.

VISION

Nous nous engageons chaque jour, pour que les emballages puissent acquérir une certaine signification, en devenant de belles expériences visuelles et émotionnelles. Nous voulons diffuser de par le monde, dans le secteur des emballages décoratifs également, toute la créativité, le soin pour les détails, le raffinement du style italien. Un cadeau est une communication, l'emballage est un moyen pour la rendre plus intense; grâce à nos produits, nous pouvons contribuer à exalter ces magnifiques instants.

ITALPAK PUNTA SUL VERDE!

E' con grande piacere che vi presentiamo il nostro nuovo prodotto "eco-friendly", pensato per rispondere direttamente alle crescenti problematiche sulla sostenibilità ambientale.

La carta **ECO 'OK COMPOST'** deriva da materiali interamente naturali e rappresenta una perfetta alternativa sostenibile nell'ambito della carta da regalo e del packaging in generale. Grazie infatti alla resistenza dovuta allo strato di **bioplastica**, accoppiato alla qualità naturali della carta, viene a crearsi un prodotto unico.

Con la sua capacità di decomporsi, senza quindi inquinare, avrete finalmente la possibilità di confezionare i vostri regali nella maniera più ecologica possibile.

Cosa aspettate allora?

Enjoy your packaging, anzi... your ECO-packaging!

Carta ECO "OK COMPOST"

Carta compostabile prodotta da fibre vergini di cellulosa, provenienti da foreste gestite in modo sostenibile.

Nei processi di produzione della carta non sono utilizzati né cloro né materie provenienti da riciclo. La carta è esente da imbiancanti ottici e accoppiata a bioplastica estrusa brevettata "MATER BI".

ITALPAK GOES GREEN!

It gives us great pleasure to present our new eco-friendly product, designed to tackle the growing problems of environmental sustainability directly.

ECO **'OK COMPOST'** paper is made entirely from natural materials and represents a perfect sustainable alternative for gift wrapping and packaging in general. The strength of its **bioplastic** layer combined with the natural quality of the paper makes it a unique product.

Its ability to decompose without polluting allows you finally to wrap your gifts in the most ecological way possible.

So what are you waiting for?

Enjoy your packaging, or rather... your ECO-packaging!

ECO "OK COMPOST" paper

Compostable paper produced from virgin cellulose fibres, from forests under sustainable management.

In the paper production processes chlorine and recycled materials are not used.

The paper contains no optical whitening agent and is coated with a patented "MATER BI" extruded bioplastic.

ITALPAK PER L'AMBIENTE

ITALPAK SI IMPEGNA A:

- essere al corrente di tutte le principali leggi e normative riguardanti l'ambiente, e a conformarsi ad esse;
- comunicare e promuovere tra i dipendenti la consapevolezza delle tematiche ambientali, e assicurarsi che essi siano istruiti a tener fede alle proprie responsabilità;
- cercare un costante miglioramento nella propria politica ambientale, fissando obiettivi e targets concreti;
- al momento della scelta di materie prime, nuovi prodotti, processi di produzione e macchinari, considerarne l'impatto ambientale.

COSA SIGNIFICA PER I NOSTRI CLIENTI

Siamo convinti che un'azienda che aderisce a una solida politica ambientale, migliora non solo il proprio ambiente, ma anche la propria efficienza. Lo staff lavora in uno spazio più salubre, con materiali scelti accuratamente per questo scopo. Ciò permette di svolgere il lavoro quotidiano con meno stress, facilitando il raggiungimento degli standard di qualità prefissati, con migliori risultati e a costi contenuti.

COSA SIGNIFICA IN CONCRETO

Tutti i materiali sono selezionati con un occhio di riguardo all'ambiente. Naturalmente la maggior parte delle materie prime è riciclabile, inclusi gli articoli che riceverete da Italtipak, che sono riciclabili quasi al 100% o comunque derivanti da processi sostenibili. In questo modo vi garantiamo il nostro impegno a preservare l'ambiente per il futuro. Cerchiamo di limitare il più possibile l'impatto ambientale di inchiostri e altri materiali di consumo. I macchinari sono acquistati valutando la loro efficienza, in termini sia energetici che di produttività, tenendo sotto controllo l'emissione di calore e i costi. Anche l'impatto a livello di inquinamento acustico è valutato attentamente. Materiali di scarto: gli scarti di materiale, stampato e non, sono messi da parte al fine di essere riciclati. Inchiostro: l'inchiostro di scarto viene raccolto in appositi contenitori e reso al produttore; anche i contenitori vuoti vengono smaltiti tramite raccolta differenziata.

ITALPAK AND THE ENVIRONMENT

ITALPAK WILL:

- Be aware of, and comply with, all relevant environmental legislation and regulations
- Communicate and promote awareness of relevant environmental issues to all employees, and ensure they are trained to fulfill their responsibilities.
- Seek continuous improvement in our environmental performance by setting of environmental objectives and targets.
- Consider environmental impact in our selection and use of raw materials, new products, processes and plant.

WHAT THIS MEANS TO OUR CUSTOMER

We believe that a company that adheres to a sound environmental policy improves not only its own environment, but also becomes more efficient. Staff work in a healthier workplace and with materials carefully selected to help them. This allows the daily work to proceed with less stress, which makes it easier to achieve our quality standards with good efficiencies and at a cost-effective price.

WHAT THIS MEANS IN REALITY

All materials are selected with a view to the environment. Of course, most of our raw materials are recyclables, but the articles you will receive from Italtipak are either almost 100% recycled or manufactured from sustainable processes. In this way we can assure you of our commitment to providing an environment for the future. Whenever possible inks, pastes and peripheral supplies are brought to minimise their impact on the environment. Machines are bought for their energy efficiency, as well as their production efficiencies. Construction is made to reduce heating emissions and costs. In an environment where noise pollution is a real problem, machines are also selected on the basis of this pollution value. Waste Materials: printed and unprinted waste is kept separate and collected for recycling. Ink: Waste ink is returned to the manufacturer. All ink tins are stored and collected by the ink manufacturer - no empty tins are allowed to go in the general waste.
